

Join the PDA LGBT+ Pharmacists' Network!

The LGBT+ Pharmacists' Network concerns itself with issues of special relevance to Lesbian, Gay, Bisexual and Transgender pharmacists within the UK. It provides a structure through which members can work together to proactively address and campaign around sexual orientation and transgender discrimination and its causes and consequences.

The network was launched by the PDA in April 2020 as part of their work to meet the demands of their growing membership and advance their work on equality.

The network's mission is to enable all Lesbian, Gay, Bisexual and Transgender pharmacists to realise their full potential and raise their profile by being educationally, socially and politically active.
